

**CITROËN GRAND C4**  
*Picasso*

**Citroën C4 Picasso,  
are you ready to see  
things differently?**

WELCOME TO THE WORLD OF VISUAL FREEDOM. WITH A SUPER-WIDE PANORAMIC WINDSCREEN, A GLASS SUNROOF, AND A CLASS LEADING AMOUNT OF GLAZED AREA OFFERING INCREDIBLE SIGHT LINES, THE CITROËN C4 PICASSO WILL REDEFINE YOUR DRIVING EXPERIENCE FOREVER.

C4 Picasso Exclusive shown with optional Yellowstone Leather (Premium Pack Two) and Panoramic Glass Roof

# The art of admiration

DISCOVERING THE CITROËN C4 PICASSO IS AN UNPARALLELED PLEASURE DESIGNED TO CAPTURE YOUR IMAGINATION. THE SWEEPING LINES AND ARCHING CURVATURE-FROM THE PANORAMIC WINDSCREEN AND GLASS ROOF TO THE REAR SPOILER-ARE CRAFTED WITH INNOVATION AND CHARACTER. THE SOLID, SMOOTH CURVES TO THE QUARTER WINDOWS, HEADLIGHTS AND INDICATORS HAVE BEEN CREATED WITH PERSONALITY IN MIND TO SEDUCE YOUR EYE AND WELCOME YOU INTO A NEW STYLE OF BEAUTIFULLY CRAFTED DRIVING.

This brochure is intended to show the general appearance and features/equipment available on the Citroën C4 Picasso. Please consult your dealer or the Specification leaflet for precise version specification and option availability.

# The look of style

TAKE A CLOSER LOOK AT THE CITROËN C4 PICASSO AND IMMERSE YOURSELF WITH THE TOTAL DRIVING EXPERIENCE. SMOOTH, SEAMLESS AND DESIGNED WITH EXCELLENCE AS STANDARD, A FREE FLOWING SINGLE LINE RUNS FROM THE SUPER-WIDE WINDSCREEN AND SPECTACULAR ROOF TO THE REAR SPOILER, CREATING AN AMAZING AERODYNAMIC PROFILE. LARGE WINDOWS, A DYNAMIC WAIST LINE AND BREAK IN THE REAR QUARTER WINDOW CREATE A DESIGN OF DISTINCTION, WHILE AT THE REAR, THE ABSENCE OF BODY-COLOURED C-PILLARS CREATES THE IMPRESSION OF AN EXTENDED WINDOW LINE. THE TIME HAS COME. PREPARE TO SEE THINGS DIFFERENTLY.

Eye catching front headlamps are beautifully designed and inspired with an elegant transparency, subtly underlined by the coloured tone of the indicators.

The rear and 3rd brake-lights add a distinctive flair, a unique visual design offering the highest standards in size and lines of light.

## The beauty of individuality

DYNAMIC, IMPOSING, PROMINENT AND SOLID, THE LARGER THAN LIFE CITROËN C4 PICASSO IS AN ICON IN THE MAKING. WITH CLEAN, FLUID AND HARMONIOUS DESIGN LINES, AND EXTENSIVE USE OF GLASS. CHOOSE AN ANGLE. SIDE ON OR HEAD ON, THE CITROËN C4 PICASSO POSSESSES NOTHING SHORT OF A POWERFUL PRESENCE.

The optional panoramic glazed roof, laminated in 5mm glass and coated with an anti-ultraviolet and infrared tint, is the perfect light and shade enhancer. The opaque catch-proof blind on an electric reel with 10 positions provides excellent heat and light isolation, similar to the traditional sunroof.

The wide chevron badge with angled chrome strips extending up to the headlamps creates a design signature that stamps the Citroën C4 Picasso with its unmistakable identity.

Each of the three seats in the second row feature a backrest that can tilt for comfort and they are adjustable for length. All three seats are the same width and can be folded flat. Each side seat cushion in the second row folds up towards the seat back, like a cinema seat, and in a single movement slides forward to free up maximum space for convenient access to the third row seating.

## Ingenious layout.

THE INGENIOUS LAYOUT OF CITROËN C4 PICASSO PROVIDES ALMOST UNLIMITED SEATING FLEXIBILITY FOR UP TO SEVEN ADULTS.

The simple, functional seat design of the Citroën C4 Picasso has been crafted with you and your passengers in mind. The interior layout can be reconfigured quickly and easily, while keeping all the seats inside the vehicle.

The two seats in the third row can be easily employed by folding back the floor covers and pulling the strap on the seat back upward in a single motion. To fold the the seats down simply pull the strap on the rear base and fold the floor covers back into place. The perfect way to add more people to the car or create all the space you will need.

## Amazingly spacious.

SAY GOODBYE TO WHAT YOU KNOW, THE CITROËN C4 PICASSO IS HOME TO SEVEN FULL-SIZED SEATS.

Freedom is the heart to Citroën C4 Picasso's exceptional cabin space, where seven occupants can be accommodated on three rows of seats. The second and third row seats are designed with optimum comfort and spring to life or disappear as required.

Model shown is Exclusive Citroën C4 Picasso with Alcantara® trim

The Citroën C4 Picasso is all about you and your new driving experience. For all your driving and comfort information, one look to the central display window is all you need. Data is divided into two parts; a section permanently displaying essential driving information, such as speed, rev-counter and fuel gauge, and a multifunction screen in the centre where you can access all the information you need on consumption, radio frequency and sound system.

The brightness of both screens is easily adjustable perfect for driving by day or by night.

## A different drive

LOOKING SPACIOUS, FEELING SPACIOUS, THE CITROËN C4 PICASSO DASHBOARD AND CABIN LAYOUT USES INNOVATIVE DESIGN AND SMART TECHNOLOGY TO CREATE THE FREEDOM FOR A NEW DRIVING EXPERIENCE. GONE IS THE TRADITIONAL CENTRAL CONSOLE HOUSING THE GEARBOX. THE UNIQUE DRIVING POSITION COMPLETELY FREES THE DASHBOARD, GROUPING THE GEARBOX MODE SELECTOR AND SEQUENTIAL GEARSHIFT PADDLE CONTROLS ON THE STEERING WHEEL. NOW, THERE IS MORE SPACE, MORE COMFORT, AND MORE REASONS TO WANT TO DRIVE.

The driver and front passenger each have their own air-conditioning and temperature controller located at each end of the dashboard. Air quality sensors detect pollutants in the outside atmosphere and automatically engage the air-recycling function in the cabin. For that luxurious, clean drive, just switch on the air freshener, which will refresh your Citroën C4 Picasso with a fragrance developed for well-being and invigorating comfort.

Air conditioning, temperature and air flow can be set automatically and the driver is always within easy reach to make all adjustments centrally via the main control panel.

Optional Citroën Navidrive system shown

Optional Citroën Navidrive system shown

Driving and comfort information appears on a screen in the centre of the dashboard. Select the information and choose the background colour that suits you. By night or by day, the display screen is easily adjustable and adapted to suit all light conditions for maximum optical clarity.

With the Citroën C4 Picasso, the dream of total comfort is closer than you think.

A new driving experience where safety is key.

Thanks to Citroën C4 Picasso's cleverly positioned crystal side lights at the foot of the door-mirrors, excellent all-round lighting is standard and just as effective when the door-mirrors are folded in as when they are opened out. The Citroën C4 Picasso design incorporates lighting throughout, at the driver's and front passenger's door, and at the sides of the C4 Picasso.

The Child-lock system is operated by electric controls within easy reach of the driver's hand, which instantly lock and unlock the windows and rear doors.

Even in the smallest detail, the functionality of the Citroën C4 Picasso rings true. Fuss free and hassle free, the new automatic, plug-free filler flap flips up without having to touch the cap.

You decide how much sunlight comes in. The panoramic wide angle windscreen is cleverly equipped with two independent sliding sunblinds, which can be quickly adjusted by sliding manually to the position required.

The row two side windows have been designed with retractable sunblind curtains and integrated rollers, which filter light while offering a clear view outside. A clearer and more pleasurable drive for everyone.

Note: Third row and tail gate blinds standard on Exclusive model.

## The joy of travelling

FROM DRIVER TO PASSENGER NUMBER SEVEN THE ATTENTION TO DETAIL AND SPACIOUS COMFORT IS COMPLETE. THE TOTAL CITROËN C4 PICASSO INTERNAL AMBIENCE HAS BEEN DEVELOPED SO THAT THE SEATING, SOUND, TEMPERATURE, LUMINOSITY AND ENTERTAINMENT FEATURES COMBINE AND CREATE IN A UNIQUE WAY. SIT BACK AND LET THE RIDE OF YOUR LIFE BEGIN.

The unique and original moving seat design of the Citroën C4 Picasso creates easy access to row three. Activate the control and the cushions to the outer seats in row two automatically lift up towards the seat back. Just slide the seat forward up against the front seat-backs in a single movement and free the space for immediate access to the third row.

Air Conditioning controls are also available to the second row passengers (excluding the centre passenger) for the comfort of the second and third row passengers. Second row passengers (excluding the centre passenger) can adjust air conditioning controls located in the door pillar for fan speed as well as temperature plus or minus two degrees of the main air conditioning control panel.

For the most complete ride of your life, the Citroën C4 Picasso offers your senses a range of treats.

Available as an option are two 7" screens for rear seat (row two) passengers. Rake-adjustable screens at the top of the first-row backrests are cleverly positioned to retract behind the aircraft-style trays. Watch a film or plug in your games console, a ride in the Citroën C4 Picasso will be your most creative and enjoyable.

Note: Interior shots are of Exclusive Citroën C4 Picasso with Yellowstone leather trim.

# Ergonomically satisfying

AT THE WHEEL OF YOUR CITROËN C4 PICASSO, EVERYTHING IS EASY. THE CONTROLS ARE FIXED AND CENTRALISED ON THE SOLID BUILD STEERING WHEEL. TURN THE WHEEL AND THE CONTROLS REMAIN IN PLACE. THE STEERING WHEEL IS ALSO HEIGHT AND REACH ADJUSTABLE. THE AUTOMATIC TRANSMISSION HAS STEERING-WHEEL MOUNTED SEQUENTIAL GEARSHIFT PADDLES AND A MODE SELECTOR ON THE STEERING COLUMN. REGARDLESS OF DRIVER POSITION, ALL CONTROLS ARE A FINGERTIP AWAY.

## Load, store and go.

TO TRAVEL IN STYLE AND COMFORT IS TO HAVE EVERYTHING YOU NEED WITHIN EASY REACH. IN ADDITION TO THE CONVENTIONAL STOWAGE SPACE PROVIDED IN THE INNER DOOR PANELS, THE CABIN ALSO FEATURES CLEVERLY DESIGNED STOWAGE COMPARTMENTS OF ALL SIZES, EQUALLY DISTRIBUTED AT THE FRONT ON THE DASHBOARD AND IN THE REAR UNDER THE FLOOR OR IN THE DOOR PANELS. EVERYTHING YOU NEED, WHEN YOU NEED IT.

Lover of roads and loads.

With the classic 5 seat configuration, the Citroën C4 Picasso has a boot with impressive dimensions; over 1 metre of usable space, over 1.16m in width, and 55cm high beneath the luggage cover. This spacious interior provides approximately 576 litres beneath the luggage cover, and 893 litres up to the roof, and when all the seats are folded away, the boot can be extended to almost two cubic metres, and a maximum capacity of 1,951 litres.

An optional stowage net allows objects to be well stored. Thanks to the hooks provided in the boot, the design offers multiple configurations.

The functional layout of the Citroën C4 Picasso makes the boot easily accessible and convenient to use. On Exclusive models, the opening rear window allows the boot to be comfortably accessed and loaded, even when parked in tight spaces.

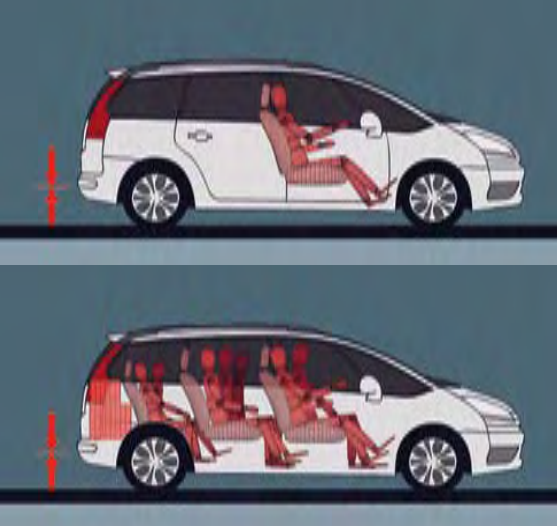

The back-rests of the first row of seats are fitted with new aircraft-style trays that can be used by row two seat passengers. The trays are tailored to suit the shape of the seatback and fold freely downwards without sacrificing knee room for second-row passengers. A stowage net is also provided on the back of each front seat.

Two large, illuminated, covered storage spaces are built into the upper left and right sections of the dashboard, and are lined with slip-proof fabric to prevent items inside from moving and making noise.

On the front passenger side is the illuminated glove compartment, which comprises two handy spaces to keep smaller everyday objects, as well as two air freshener refills.

The Citroën C4 Picasso is designed for more space with an additional storage compartment positioned on the lower central part of the dashboard. This compartment is also a cooler and will keep products such as a 1.5 litres bottle and two 0.5 litres bottles at a low temperature, even when the air conditioning blows hot air into the cabin. Simply open the compartment and the lid becomes a tray with two cup-holders.

The Citroën C4 Picasso Exclusive is fitted with a pneumatic rear suspension system that offers improved comfort for all passengers and a constant height no matter the load. The clever pneumatic suspension system at the rear enhances passenger comfort by making suspension smoother and damping the force applied to the Citroën C4 Picasso over irregular road surfaces. Heavy load or light load, the Citroën C4 Picasso maintains stable vehicle attitude for a more pleasurable and safe drive.

## Beyond a driving experience

FROM TOWN AND ROAD TO MOTORWAY, WHETHER FULLY LOADED OR EMPTY, YOUR HIGH QUALITY RIDE IN THE CITROËN C4 PICASSO IS ASSURED. DRIVE AND ENJOY. THE CITROËN C4 PICASSO WILL TAKE CARE OF THE REST.

Vehicle shows optional Xenon headlamps with washers

When it comes to state of the art pneumatic suspension\*, look no further. Press the control button in the boot and lower or raise your stationary Citroën C4 Picasso up to 7cm, making it easier to load heavy or large objects. The Citroën C4 Picasso can then be easily returned to its original height, either manually by pressing the button twice or automatically, when the vehicle exceeds a speed of 10 kph.

\*Exclusive model only

The Citroën C4 Picasso is available in 3 engines, each developed to the highest standards for a more comfortable drive that is kinder to your fuel economy and kinder to the environment.

**Petrol engine:** The **2.0i 16V 103kW** with automatic transmission offers remarkable power, smooth acceleration and excellent fuel-efficiency.

**Diesel engines:** Choices of two engines are available, a **1.6HDi 80kW engine\*** with a 5 speed manual transmission and **2.0HDi 100kW engine** combined with a six speed automatic transmission.

\* By special order only

The Citroën C4 Picasso has been designed with the environment in mind, limiting pollution, optimising economy and promoting the recycling of waste materials.

From the Citroën C4 Picasso's conception, the remarkable aerodynamics and specifically chosen light material ensure the weight and fuel consumption are kept to a minimum, especially with an empty load. The bonnet and roof are made from aluminium, while the seats frames are made from magnesium. Petrol engines are equipped with EOBD, European on Board Diagnostic system, which detects any malfunction leading to the authorised emission thresholds being surpassed, while both diesel engines are fitted with a Diesel Particulate Filter System, (DPFS).

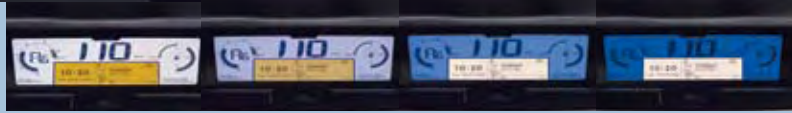

Model shown is Exclusive Citroën C4 Picasso with interior lighting pack as standard

Model shown is Exclusive Citroën C4 Picasso with interior lighting pack as standard

Natural or artificial, light plays an integral role with particular attention given to ambience lighting. There are a range of controls to create your own internal mood. Light guides under the central fascia strip, in the door panels and in the roof diffuse a soft indirect light that is adjustable using a translucent button on the bottom part of the dashboard. The cabin also features small LEDs in the door-opening controls and front roof light. Note: Interior mood lighting standard on Exclusive model and optional as part of a pack on all derivatives.

## Welcome to the light

SPACIOUS AND BRIGHT ON THE INSIDE, THE CITROËN C4 PICASSO IS DESIGNED TO BATHE THE ENTIRE CABIN IN LIGHT. LARGE WINDOWS AND A KINGSIZE GLAZED SURFACE AREA MADE UP FROM THE SUPER-WIDE PANORAMIC WINDSCREEN AND OPTIONAL PANORAMIC ROOF, ALL COMBINE FOR A BRIGHTER JOURNEY. THE INTERNAL LIGHT SYSTEM COMES INTO EXCELLENT EFFECT WITH THE ENTIRE CABIN LAYOUT, OFFERING EVERYONE ON BOARD A WARM AND REASSURING ATMOSPHERE.

The Citroën C4 Picasso is alive with intelligence. Standard on Exclusive models and available as part of the premium pack on all other models, the stowage compartments in the front door panels automatically light up when you put your hand inside, making it easier to find things quickly.

Reading lights are positioned on the backs of the front seats. Passengers simply fold down the aircraft-style tray and switch on, without the need to disturb the driver or other passengers.

The Citroën C4 Picasso has lots of bright ideas. For those times when you simply must have a fully charged torch, reach for your rechargeable lamp in the boot. This acts as both a boot-light and hand-held torch. Just pull it away from the clip and you have a ready-to-use torch with up to 40 minutes power. The torch is easy to find and recharges as soon as it is returned to the boot and the car starts moving.

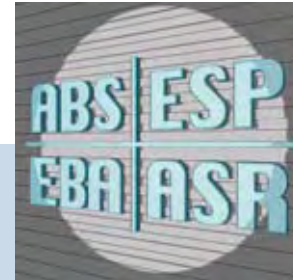

Model shown is Exclusive Citroën C4 Picasso

A total of seven airbags are fitted to the Citroën C4 Picasso. In the event of an impact, the Citroën C4 Picasso features a steering column airbag protecting the driver's knees and shins. Thanks to the fixed-centred controls steering wheel, the driver's airbag is designed to be deployed at the required, precise angle for optimal protection. Further protection is built-in so that the pressure and volume of the airbag automatically adjusts with the force of collision.

In the front seats are two further side airbags for thorax and body protection while two curtain airbags offer head protection for all passengers in the first two rows of seats.

The Electronic Stability Program (ESP) operates automatically on the distribution of braking power together with the engine speed to stabilise the trajectory of the car on bends as soon as any risk of oversteer or understeer has been detected by the system's electronic sensors. The traction control (ASR) is linked to the ESP and immediately reduces the excess power to the driving wheels in the event of wheel spin. It also operates when moving off should excessive acceleration be applied on a slippery road surface.

The Anti-lock Braking System (ABS) electronically regulates braking pressure to avoid wheel-locking so the driver can maintain roadholding and the ability to steer the vehicle when braking. Connected to the ABS, the Electronic Brakeforce Distribution (EBD) ensures braking pressure is evenly applied to the wheels (front-rear and right-left) so that, should the need arise, maximum effect can be achieved from the braking power. Emergency Braking Assistance (EBA) instantly amplifies braking pressure in the event of an emergency so that the stopping distance is the shortest possible.

On rapid deceleration, the hazard warning lights come on automatically to warn drivers behind. They go off when accelerating so they can be switched off manually.

The Citroën C4 Picasso's automatic electric parking brake improves comfort and safety. This electric brake is automatically applied when the engine stops. The ECU works in tandem with the ESP to calculate the force required to immobilise the vehicle, depending on the gradient of the road. As soon as the torque applied to the drive wheels is sufficient, the parking brake is automatically released.

The electric handbrake control is located within easy reach in the middle of the dashboard, and can be used to apply the parking brake in a conventional manner if required.

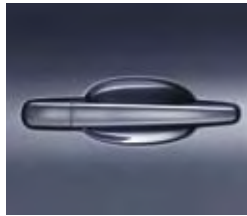

## In safe hands

WHEN IT COMES TO THE DEMANDS OF SAFETY, THE CITROËN C4 PICASSO TAKES YOU FURTHER WITH BOTH ACTIVE AND PASSIVE SAFETY. ACTIVE SAFETY IS ASSURED BY INNOVATIVE FEATURES SUCH AS THE ESP AND ABS. THE CITROËN C4 PICASSO IS ALSO BUILT TO ABSORB ENERGY IN THE EVENT OF A COLLISION. FURTHER BENEFITS INCLUDE A REINFORCED CABIN LAYOUT, THREE POINT SEAT BELTS ON ALL THE SEATS, AND 7 AIRBAGS.
